### Iran's War on the West

Iran's War on the Judeo-Christian World is a War on the West as a whole. It currently focuses on kinetic war against Israel and American outposts, all of which provides considerable fodder for the ongoing Cultural Marxist subversion of Western civilization.

#### Worldviews Collide

#4 on my [9 POINT 10/7 Reality Check](#) from Oct. 25 was **Worldviews Collide: Judeo-Christian Values vs. Islamist Values**. That collision comes from Iran and is directed at Western Civilization, aka WesternCiv or simply *the West*, i.e., the Judeo-Christian World.

### IBIL libels Israel.

#### IBILand

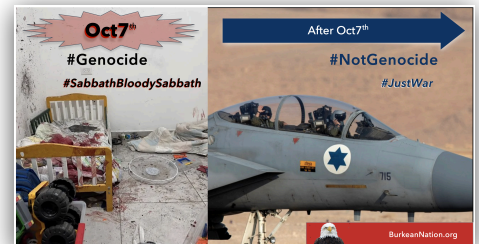

IBIL drove TV News and has gone metastatic in the social media Twilight Zone, aka IBILand. Imagery of apparent civilians harmed by bombs, bullets, fragments and shocks are prime IBIL. Dead babies are the most valuable form of cryptocurrency in IBILand.

This isn't just about Jews. It's about societal breakdown.

Sadly, Cultural Marxist insanity is overrunning the entire Judeo-Christian World. Individuals don't matter to the Marxist, not their many formative and learned aspects, nor - in Palestine - their very lives.

### Everything's Changed

Everything's changed since last Saturday. That's when the Hamas Horde perpetrated extraordinary savagery on unarmed civilians. Their bid for global attention worked.
